Profile Summary

Motivated and detail-oriented university student specializing in Cybersecurity, with hands-on experience in system hardening, vulnerability scanning, and Linux-based security tools. Passionate about protecting systems and networks and continually expanding technical skills through self-driven learning and practical projects. Strong foundation in Cisco Cybersecurity principles and solid understanding of software development fundamentals.

Education

Currently studying at Meru University of Science and Technology, pursuing a Bachelor's degree in Computer Security and Forensics.

Certifications

- Cisco introduction to Cybersecurity

Technical Skills

- Linux (Kali, Ubuntu)
- Network security & firewall configuration
- Vulnerability scanning

- Familiarity with software development lifecycle (SDLC)
- Content filtering, access controls, and hardening policies

Practical Experience

Network Security Lab Exercises - Performed vulnerability assessments and simulated penetration testing scenarios. - Configured and tested network security policies using Cisco tools.

Soft Skills

- Analytical thinking and problem solving
- Attention to detail
- Self-motivated and proactive learning

Languages

- English

Interests

- Cyber threat intelligence
- Open-source security tools
- Community cybersecurity challenges & CTF
- Software development
